PROFESSIONAL SUMMARY

B.Tech IT graduate with hands-on experience in Full Stack Development, Network Monitoring, Data Analytics, and UI/UX Design. Skilled in React.js, Node.js, Django, MongoDB, MySQL, PostgreSQL, Docker, Kubernetes, and Zabbix. Experienced in client interaction, requirement gathering, and developing real-world applications through internships, freelance projects, and hackathons.

EDUCATION

KJ Somaiya College of Engineering

Vidyavihar, Mumbai

B.Tech in Information Technology | GPA: 8.35/10 |

2022 – 2026

Relevant Coursework: Data Structures & Algorithms, Operating Systems, DBMS, Computer Networks, AI/ML

SKILLS

Frontend : React.js, Next.js, Vite, HTML, CSS, JavaScript

Backend : Node.js, Express.js, Django

Languages : C, C++, Python, JavaScript, Go

Databases : MongoDB, MySQL, PostgreSQL

Tools & Platforms : Git, GitHub, Docker, Kubernetes, Postman, Zabbix, VS Code, Excel, Linux commands, Notepad++

UI/UX Design : Figma, Canva

WORK EXPERIENCE

Network Operations Intern

Tata Teleservices Limited (TTL) | Jan 2026 – Present

- Working under the Network Operation Function on a Network Monitoring System using Zabbix.
- Monitoring network performance, uptime, and infrastructure health.
- Learning enterprise-level monitoring, alerting, and incident handling.
- Contributing to improving visibility of network issues through dashboards and monitoring tools.

Data Analyst Intern

Reserve Bank of India (RBI) | Jun. 2024 – Jul. 2024

- Worked under the Digital Frauds Department to analyze five years of fraud data
- Identified patterns in complaint sources and high-risk regions using data analysis.
- Suggested improvements for fraud detection and reporting processes.

PROJECTS

ISWS Global – Full Website Design & Development

2025

HTML, CSS, JavaScript, PHP

- Designed and developed a complete responsive business website from scratch based on client requirements.
- Collaborated directly with the client to understand business goals and translate them into a modern web interface.
- Optimized the website for SEO, cross-browser compatibility, and responsive design across multiple devices.

Freelance Pilates Studio Website

2026

HTML, CSS, JavaScript

- Developed a professional website for a Pilates studio to improve its online presence and customer engagement.
- Implemented service pages, contact forms, and a clean user interface focused on usability.
- Delivered a responsive design suitable for desktop and mobile platforms.

AR/VR Fashion Experience – WeForShe Hackathon (Myntra)

2024

AR/VR, UI/UX Design, Figma

- Built an immersive AR/VR-based solution to enhance the online fashion shopping experience.
- Designed a virtual try-on concept allowing users to visualize outfits before purchase.
- Focused on improving personalization and accessibility using emerging technologies.

Blockchain-Based Fraud Analytics Platform

2025

Blockchain, Ethereum, Solidity, Python

- Developing a blockchain-integrated fraud analytics system for secure and tamper-proof record management.
- Leveraging Ethereum smart contracts and Solidity for decentralized data storage.
- Designing dashboards to visualize fraud trends and improve transparency in reporting.

Full-Stack Job Portal Web Application

2025

MongoDB, Express.js, React.js, Node.js

- Developed a complete MERN-stack job portal connecting recruiters and job seekers.
- Implemented authentication, role-based access control, job posting, and application tracking features.
- Built recruiter and candidate dashboards to simplify the hiring process.

- Developed a real-time anti-spoofing system capable of distinguishing live users from photos and videos.
- Integrated CNN models with OpenCV and eye-blink detection to improve authentication accuracy.
- Designed the solution for secure facial recognition and access-control applications.

CERTIFICATIONS

Visualization for Data Analysis with Power BI
Google UX Design Certificate
Blockchain Basics
Python,C

Microsoft. (Coursera)
Google (Coursera)
Univ. at Buffalo, SUNY (Coursera)
Impetus Classes

KEY ACHIEVEMENTS

- Participant, **Smart India Hackathon 2023** — delivered a working Coal Management Prototype within a 36-hour timeline.
